Unit 0 and 1 test 9/17/2013 non-travel day Name: _____

The following space is for you to "gather thoughts" about what you can say in 20 seconds in response to each prompt. During a real AP exam, in the conversational section, there is no time given, i.e. test taker needs to speak up for 20 seconds right after the prompt is given. **Be sure to work at least one cohesive device into each response.** Turn this test sheet in after you're done. I will mark it up and give it back to you so that you will be speaking in grammatically correct sentences. Your product serves as writing & speaking test.
You will have a conversation with Li You, your new Chinese classmate who recently moved to where you live.
